PRODUCT DETAILS

Artople films provide the best of both worlds: privacy and transparency where needed most. Artople films are printed on an optically clear, polyester film. Suitable for any window display application. This is a PSA (Pressure Sensitive Adhesive) film, meaning the adhesive will use pressure to mechanically bond the film and glass together during installation.

INSTALLATION & WARRANTY

Installation

Installation requires the glass to be cleaned before applying with a water-based slip solution to provide a distribution free application. Exterior applications applied 1st or 2nd surface.

Warranty

Products installed by a certified installer will be granted a five year warranty. See warranty information for more details.

QUALITY & DISTRIBUTION

Quality Assurance

Artople window film adheres to the International Window Film Associations standards; standards are available upon request.

Distribution

All products will be supplied through Artople

Specifications

Product Code	Artople Organic Series
Film Type	Optically Clear Polyester
Adhesive Type	Pressure-sensitive
Usage	Exterior glazing
Thickness	2.8 mil
Material	Polyester
Visible Light Transmission	0-90% (dependent on design)
UV Transmission	5.8%
Material Width	58"
